

Case-Halls Mills,
Investigation-DeM.

On September 16th, 1926. In order to locate Mrs. Lapham I proceeded to the office of Mr. M. Glazer at 130 West 42nd Street and was informed that they did remove the records from the Ansonia Hotel and in order for me to get the said information it would be necessary for me to have Mr. Pfeiffer write them a letter concerning the information wanted and they would search their records and should they locate Mrs. Lapham's address they would notify Mr. Pfeiffer within 24 hours.

I then consulted directories for the purpose of locating Merle McAllister and C.B. Carter who was Mrs. Gibson's manager when she was on exhibition at the Armory, but I was unable to locate either. I also tried to get in touch with Mr. Walsh the seargent of the 104th Field Artillery Armory at that time, and was informed that he had not been home yet.

On this day was in conference with Mr. Pfeiffer and Mr. Paulzer and gave them a verbal report of my investigation.
